Subject: Recommendation Letter

RE: Southwest Hazard Control, Inc.

To Whom It May Concern:

It is my pleasure to recommend Southwest Hazard Control Inc. for any of your hazardous abatement needs. They are a solid, trustworthy company who has performed many projects for us over a four year period with exceptional results. Southwest Hazard Control has the professionally trained staff, internal infrastructure, and can-do attitude needed to accomplish any size project. They extremely safe and have accomplished all of our projects without incident or injury.

Over the last two years, Southwest Hazard Control has provided abatement services for a number of our large projects valued at almost \$600,000, and each encompassing varying degrees of site constraints. Every time, Southwest Hazard Control has performed above and beyond our expectations by meeting tight scheduling requirements and completing the project on budget.

I would highly recommend Southwest Hazard Control, Inc. for any project regardless of size and location.

Best Regards,

Kirk McWethy
