

Au' Authum Ki, Inc.

To Whom It May Concern

I am writing this letter as a recommendation of Southwest Hazard Control. This company and their personnel performed their abatement procedures on a project we did at Luke AFB in Glendale, Arizona. The SHC personnel exhibited an extremely professional attitude not only with our verbal dealings with them but also their work ethics. I would highly recommend SHC to perform any ACM abatement projects that you may have and we will definitely use them again when the situation arises.
